Revolutionizing Technical Education

At Tech Academy Pvt Ltd, we're on a mission to transform how technical education works. We bridge the critical gap between traditional academics and real industry demands through project-based learning, continuous mentorship, and hands-on experience.

Our Mission

We believe that the best way to learn technology is by doing. Our academy focuses on project-led training that mirrors real workplace scenarios, ensuring our graduates are not just educated, but truly job-ready.

- ✓ **Fresh Graduates:** Transform theoretical knowledge into practical skills
- ✓ **Working Professionals:** Upskill with cutting-edge technologies and methodologies
- ✓ **Career Switchers:** Transition smoothly into tech with comprehensive support

Why Choose Onebridge Tech Academy?

We provide cutting-edge training that bridges the gap between education and industry needs

Industry-Leading Security Training

Master cybersecurity with hands-on labs and real-world scenarios

Cloud & DevOps Expertise

Learn modern deployment strategies and cloud infrastructure

Cutting-Edge AI Courses

Stay ahead with generative AI and machine learning training

No-Code Revolution

Build powerful applications without traditional coding

AI-Powered Marketing

Transform your marketing with artificial intelligence

Career Launch Program

From training to employment with our comprehensive support

Success Stories

Real transformations from our alumni. See how project-based learning and mentorship changed their careers forever.

Priya Sharma
AI Engineer at Microsoft

Background:

Fresh Computer Science Graduate

Journey:

Coming from a traditional CS background, I struggled to understand how AI works in real applications. The live project on building a customer service chatbot changed everything. My mentor guided me through every step, from data preprocessing to deployment.

Success:

Landed my dream job at Microsoft with 40% higher salary than campus placements

Rajesh Kumar
Senior DevOps Engineer at Amazon

Cloud & DevOps Tools

Background:

Mechanical Engineer (Career Switch)

Journey:

After 5 years in mechanical engineering, I decided to switch to tech. The hands-on approach at Tech Academy made complex concepts like Kubernetes simple. Building a complete CI/CD pipeline for a real client gave me the confidence I needed.

Success:

Successfully transitioned careers with a 200% salary increase

Sneha Patel

Cybersecurity Analyst at Deloitte

Cybersecurity & Ethical Hacking

Background:

Working Professional (Upskilling)

Journey:

As a network admin, I wanted to move into cybersecurity. The penetration testing labs and real vulnerability assessments prepared me for industry challenges. The continuous mentorship helped me clear multiple security certifications.

Success:

Promoted to cybersecurity team lead within 6 months

Application Process

Our merit-based selection process applies to both Free and Paid programs. We believe in selecting candidates based on motivation and potential, not just existing skills.

Merit-Based Selection

All Programs Included

Fast Track Available

01

Submit Application

5 minutes

Fill out our comprehensive application form with your background, goals, and program preferences. Include any relevant projects or experience.

- Basic information & background
- Program preference selection
- Goals and career objectives
- Portfolio/project submissions

02

Selection Interview

30-45 minutes

Participate in a detailed interview where we assess your motivation, technical aptitude, and fit for the program. No advanced technical knowledge required.

- Motivation and goal assessment
- Basic technical aptitude test
- Program-specific discussion
- Q&A about academy and mentorship

03

Cohort Assignment

1-2 days

Upon selection, you'll be assigned to a cohort with peers at similar skill levels and provided with your mentor details and project roadmap.

- Skill-based cohort matching
- Mentor assignment
- Project roadmap delivery
- Onboarding session scheduling

Ready to Start Your Journey?

Join hundreds of successful graduates who transformed their careers through our comprehensive programs. The application process takes less than 10 minutes to start.
